DIETS, WEST BENGAL :

Their Genesis, Roles & Functions

In pursuance of the National Policy on Education, 1986 and subsequent to Programme of Action 1992, West Bengal had availed the Centrally Sponsored Scheme of Teacher Education for establishing District Institutes of Education and Training (DIETs). Thus in most districts the government upgraded a selected, existing Government Primary Teachers' Training Institutes (PTTIs) to DIETs. Apart from that state has also set up new DIETs in the distrcts where a suitable PTTI for upgradation was not availble. In this State, 16 such DIETs (13 through up gradation of the PTTIs and 3 through new constructions) have been set up.

For strengthening pedagogic practices activities involving intensive in-service teachers' training packages, development of text books and supplementary reading materials, studies and action research at the district and sub-district levels and institutionalized academic support to primary and upper primary schools and to ensure all these activities achieve the goals, there is a need of a very strong and vibrant institutional framework at the district level. DIETs are being established in the districts to provides this framework and to strengthen the delivery mechanism of SSA.

The DIETs are expected to undertake, among others, the following specific activities:

- Initiatives to upgrade the quality of the teaching-learning process in the Districts in elementary education
- Orientation and capacity building of elementary and pre-school teachers through pre-service and in-service education
- Preparation of district plans for universalization of elementary education as well as up gradation of quality of education
- Development of District specific teaching and learning materials
- Support to sub-district resource centres
- Research to build an improved understanding of elementary education in the district
- Activities to improve and support community involvement in elementary education
- Activities to support training programs in adult education
- Strengthening of their own capacities.

Now, in terms of Memorandum of the Government in School Education (vide No.79-SE(EE)/SCERT-4/2012 dated 29.01.2013) both the administrative and academic control of the District Institutes of Education and Training of West Bengal have been delegated to SCERT, WB. In this state, as in 2018, there are 17 DIETs, of which 16 are functional. As per Notification No. 330-SE(EE)/10M-56/15 dated 14.04.2015, the PTTI at Alipurduar has recently been designated as DIET and 10 nos. of PTTI s have also been identified as Second Campuses of DIETs in their respective Districts under the scheme of BRGF.
